All products are listed in the MRP

PINCORE MATTRESS

Indofrench mattresses have been specifically designed to avoid back pain and virtually eliminate back stiffness. A truly special feature of the natural latex mattress is its open-ended cell structure, which provides superior ventilation.

PINCORE PILLOWS

Indofrench pillows have hundreds of pincore on the surface that ensure cool and comfortable sleep. Its own resilience feature gives superior neck and shoulder support compared to other foam pillows.

1

we extract
LATEX
from the sap of a
RUBBER TREE

Our foam is made from natural latex, a highly durable cushioning material. Indofrench foams have no added petroleum or chemical additives, making them truly natural material

MATTRESS | PILLOWS | BOLSTER

our products are
MANUFACTURED
using **DUNLOP**
PROCESS

Poured into a mould, which is then baked using a vulcanisation oven, where the foam is prepared to form a uniform bubble distribution.

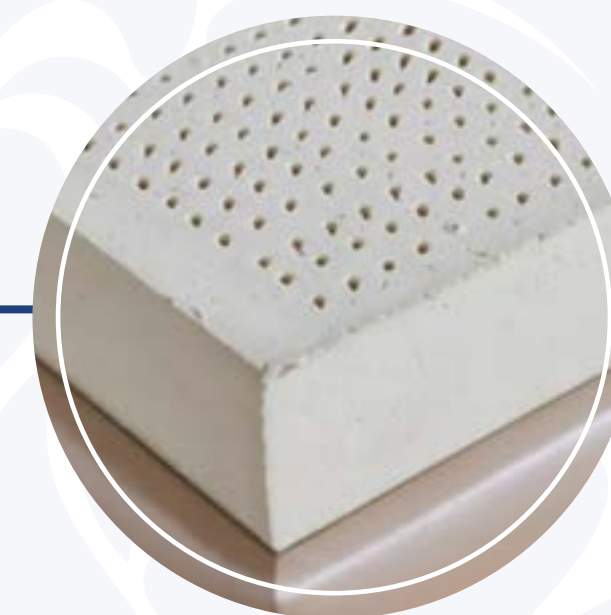

2

our products undergo

3 TIMES
washing & drying
TTP PROCESS
makes soft & durable

Indofrench foams have been orthopedically designed to have optimal posture and lumbar support, ensuring proper alignment of the spine, by gently conforming to every contour of the body. Our foam provides superior back support, thereby reducing tossing and turning that interrupts sleep. Our foam undergoes a TTP (Three Times Purification) process where the mattresses are washed three times and dried. This ensures lifelong durability where lumbar support is directly linked to the foam durability. We offer 10 year guarantee against thickness distroction.

our mattress can be
CUSTOMISED
and has an inbuilt
WATERPROOF
protector

4

Indofrench Latex foam is the best option for those who are looking for a mattress with customisability. Mattresses come with a waterproof protector that will keep your mattress dry and will prevent any liquid from passing through it.
